Primary. *Shuffle and draw a card.* Describes the situation. The rest of the spread expands the meanings of the Primary.

Nuclear. *Lines 2, 3, 4, 3, 4, 5 of the Primary.* The inner or unnoticed aspects of the situation.

Seed. *The nuclear (lines 2, 3, 4, 3, 4, 5) of the Nuclear.* The most basic character of the situation—one of four: 1. Active; 2. Receptive; 63. Complete; or 64. Incomplete.

Inverse. *Turn the Primary upside-down (lines 6, 5, 4, 3, 2, 1 of the Primary).* Where the situation might be headed. Near future.

Opposite. *Change the all lines of the Primary.* What the situation is not.

Reverse. *Switch the trigrams of the Primary (lines 4, 5, 6, 1, 2, 3 of the Primary).* If the lower and upper, inner and outer, elements of the situation were reversed, it would be like this. But it's not.

Evolutionary. *Line 1 is the changed Primary line 6. All other lines move up one position (Primary lines 1, 2, 3, 4, 5 become Evolutionary lines 2, 3, 4, 5, 6).* How the situation will develop. Longer-term future or outcome.

Transitionals. *Change each line of the Primary to get each corresponding Transitional. Change only line 1 to get Transitional 1, change only line 2 to get Transitional 2, etc.* Each changing line text of the Primary leads to its corresponding Transitional.
